

# Privacy Policy

**Last updated:** August 5, 2025

This Privacy Policy explains how we collect, use, and protect information in relation to our mobile application: **Insurance Quiz App** ("App").

This App is designed to help users study and prepare for insurance licensing exams by providing quiz content powered by AI, language translations, and explanations.

## Information We Collect

We do **not** collect any personally identifiable information (PII) such as name, email address, or phone number.

To operate the App and improve performance, we collect the following **non-personal, anonymized data**:

- **Firestore Anonymous Authentication ID**  
We use Firestore Anonymous Authentication to generate a unique user ID (UID). This UID enables local progress tracking without collecting personal information.
- **Backend Query Logs**  
We record logs when the App communicates with backend services, including:
  - Firestore Anonymous UID
  - API endpoints accessed
  - Timestamps of requests

These logs are used solely for performance monitoring, analytics, and debugging.

## Third-Party Services

We rely on the following third-party services to deliver App functionality:

- **Google Firebase**  
Used for authentication, backend storage, and analytics.  
Review Firebase's privacy practices here:  
<https://firebase.google.com/support/privacy>
- **Google AdMob**  
Ads may be shown to users who do not subscribe to the premium version. AdMob may collect data per its policies.  
View AdMob's policy here:  
<https://policies.google.com/technologies/ads>
- **OpenAI API**  
Quiz content, translations, and AI-generated explanations are powered

by OpenAI. Input sent to OpenAI is used to return relevant educational content and is not stored or used for user tracking by us.

See OpenAI's data usage policy here:

<https://openai.com/policies/privacy-policy>

## Use of Information

The data we collect is used solely for:

- Delivering quiz content and features
- Monitoring app performance
- Improving question accuracy and explanations
- Debugging and support

We do **not** use this data to personally identify users or share it with third-party marketers.

## Data Sharing

We **do not sell, rent, or trade** any user data. All collected data is used internally for app functionality and analytics.

## Your Choices

If you do not want ads or prefer not to send data to third parties (e.g., AdMob), you may choose to subscribe to a premium version (if available) to remove ads and limit external API usage.

## Contact Us

If you have any questions about this Privacy Policy or your data, please contact us at:
